Glycozyme technology made fit for industry

BRIDGE (YOUR) SCIENCE TO INDUSTRY!

In the research group around Prof. Bernd Nidetzky located at Graz, Technical University we are enthusiastic to push carbohydrate-active enzymes towards industrial application.

WE INVITE YOU – A HIGHLY MOTIVATED SCIENTIST - TO JOIN OUR TEAM!

We offer PhD or Post Doc candidates the chance to do high level research in a dynamic environment at the interface of applied enzymology and process technology.

In acib you can experience how your top science translates into industrial application. We also offer a special training program for scientists involved in industrial cooperation.

ACIB IS UNIQUE – SO IS YOUR CAREER

Wherever you stand right now, whatever your plans are – acib is the perfect starting point for your further career!

The Austrian Centre of Industrial Biotechnology is a leading research institution at the exciting cross junction of academia and industry. acib is starting in a new 4 year phase of industrial collaborations in 2020 – and we are hiring now!

Get part of a unique academic – industrial consortium together striving for outstanding innovations in “Next Generation Bioproduction”.

THAT’S WHAT YOU SHOULD KNOW

minimum yearly gross payment:

EUR 30,270.00 (PhD 30 h/week) and
EUR 53,250.00 (Post Doc 40 h/week)

Application deadline: 31st January 2020

Start: as soon as possible, best before March 2020

AND NOW THE STAGE IS YOURS! GIVE US AN IDEA ABOUT YOU.
